

Dear FCC,

The US is still a free nation. You should not attempt to regulate free speech. Regulation of free speech will be the death of democracy. The POW's have a right to tell their story from their point of view. Others should have the right to learn about this story. There are those that would censor the swift boat vets and Sinclair broadcasting. They are corrupt and evil and they are afraid of the truth. Please let all parties have their say in this election. I am not afraid of bigots like Michael Moore. Let him have his say too. But let the POW's have their say also.

Rober Badaracco
